Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

DETAILED ACTION

Claim Rejections - 35 USC § 112

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claim 2 is rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. The claim depends from an apparatus claim, but does not recite any further structural limitations to the apparatus. The claim describes an intended use of the apparatus. It is not clear how claim 2 further limits the scope of the system of claim 1.

Allowable Subject Matter

Claims 1 and 3-15 are allowed.

The following is a statement of reasons for the indication of allowable subject matter: The prior art fails to disclose or suggest a system and method having all of the limitations of claims 1, 7 and 12. In particular, there is no disclosure or suggestion of a device for demonstrating the effects of a polarized lens having the three layers comprising a lens, a film and an indicia layer as recited. While polarized lenses are a known means of reducing glare, as disclosed for example by Edwards, Sheldon and Vondrak, there is no suggestion or motivation to modify the teachings of these references to produce the invention as claimed. As a result, claims 1 and 3-15 are allowable.

Conclusion

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Sheldon, Edwards, Vondrak, Hebrink, O'Neill, Manabe, Oyama and Huang disclose various devices which comprise polarized lenses. Wilcox and Kane disclose educational devices for demonstrating principles of optics.
